This notable series has been planned to embrace all the masterpieces of song and piano literature; to gather into superbly-made volumes of uniform size the best works of the best composers, edited by men of authority. Each volume contains the best obtainable authentic portrait of the composer or composers represented; with the music is given, as far as known, the date of composition, and the contents, where possible, are arranged chronologically. In the songs by foreign composers the original texts are given and the translations are faithful and of highest literary quality. Each volume is independent, complete in itself, and sold by itself. These features make the MUSICIANS LIBRARY unique.
